

The Environmental Gathering & BTTI invite you to a zoom presentation with

**Emeritus Professor Vyvyan Howard MB. ChB. PhD. FRC Path**  
on why he thinks we should:

# STOP FLUORIDATION!

In Oct 2022 - The UK government announced plans to mandate fluoridation of public water supplies. It was then recommended in statements made by the United Kingdom's Chief Medical Officers – from England, Wales, Scotland, and Northern Ireland — endorsing the practice.

The Environmental Gathering & BTTI oppose fluoridation for three basic reasons:

- It's supposed benefits are based on unsound medical science.
- It is harmful to humans, animals, and the environment.
- It defies all common medical ethics.

Join us for this FREE zoom on:

**Thursday 20<sup>th</sup> April 2023 7.30pm**

Join Zoom Meeting: Topic: Health Conversation

BTTI Ireland is inviting you to a scheduled Zoom meeting.

## Fluoridation - Mass Medication?

It is **medically unethical** to prescribe medicine of the same concentration regardless of age/sex/weight/existing illnesses. A baby should not receive the same strength of medicine as a man weighing 15 stone!
