Meeting ID: 493 809 4936

Health Conversation with Walter Graham

Walter Graham, an activist, and campaigner against water fluoridation. Walter and many others have had a successful victory in the 1990's banning water fluoridation in Northern Ireland and now are fighting to ban it in the Republic of Ireland. Walter has agreed to give of his knowledge & experience in this fight and guide us on what is in our drinking water and what we the public can do to...

STOP FLUORIDATION! and safeguard our health!

In Oct 2022 - The UK government announced plans to mandate fluoridation of public water supplies. (Health & Care Bill 2021)

Fluoride Is a very Toxic Chemical - a substance that's poisonous or otherwise destructive to the tissues in the brain, spinal cord, and nervous system, there are hundreds of studies worldwide that have found fluoride can cause a detrimental effect on the human body.

[Why should we have to drink it?](#)

3 BASIC REASONS TO OPPOSE WATER FLUORIDATION

- HUMAN RIGHT ISSUE
- FLUORIDATION IS A FORM OF MASS MEDICATION
- FLUORIDATION IS UNNECESSARY AND INEFFECTIVE
