The hormonal system or endocrine system of the body has various glands that release different hormones, these are the body's communication system.

They carry essential messages that have far-reaching effects and control body processes at every level, from energy uptake of a single cell to the overall function of the body.

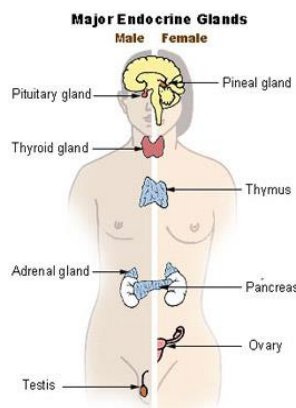

AT THE VERY INSTANT THAT YOU THINK, "I AM HAPPY," A CHEMICAL MESSENGER TRANSLATES YOUR EMOTION, WHICH HAS NO SOLID EXISTENCE WHATEVER IN THE MATERIAL WORLD, INTO A BIT OF MATTER SO PERFECTLY ATTUNED TO YOUR DESIRE THAT LITERALLY EVERY CELL IN YOUR BODY LEARNS OF YOUR HAPPINESS AND JOINS IN.
- DEEPAK CHOPRA -

In this 2-part webinar Eoin will cover the glands of the endocrine system, their effect on the body and illness related because of any imbalance with simple steps you take to correct.
