

## Agnes McGuinness

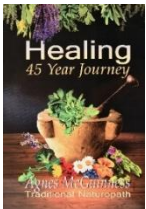

25<sup>th</sup> February 1934 - 5<sup>th</sup> June 2025

It is with deep sadness that I inform you of the death of our esteemed member Agnes McGuinness who died peacefully on the 5<sup>th</sup> June 2025, she was in her 92<sup>nd</sup> year.

Agnes has been a member of our organisation from the very beginning, starting her training on Freddie's first course in Stillorgan, she was a very keen student and soaked up all the skills eagerly and became an extremely accomplished therapist.

Always willing to share, Agnes gave many workshops for our organisation in Stillorgan passing on the findings from her experiences as a therapist, she was a great advocator of Bio-Testing & Therapy which in turn enhanced the growth of our therapy.

A very gifted lady who over the years helped many attain better health and will be missed by all our membership.

Thankfully in December 2018 Agnes fulfilled her wish and published the book she promised us all - 'what a legacy' her 'Healing 45 Year Journey' in one book - available at:  
<https://www.natureshand.ie/shop/healing-45-year-journey>

Caroline Kennedy a committee member undertook to delivery in person to Agnes a beautiful Camilla plant on our behalf for her 90<sup>th</sup> Birthday and hopefully it is continuing to grow well at her home in Tankardstown, Co. Meath.

I am sure you all have your own happy memories of Agnes, I know I do!

You may wish to remember her occasionally in your thoughts & prayers....or maybe just ask her for inspiration in your work.

Warmest Regards

*Christina Benson*

On behalf of the BTTI Committee
